WORK EXPERIENCE

Software Developer Intern

20TH LETTER

11/2022 - 01/2023

Remote

Achievements/Tasks

- As a Front-End Developer at 20TH LETTER, I was responsible for designing and implementing the user interface of the company's website. My duties included developing responsive layouts using React and Material UI, collaborating with the back-end development team to ensure seamless integration, and testing and debugging code to ensure optimal performance.
- I also contributed to the creation of wire-frames and user flows to improve the user experience. Through this role, I gained valuable experience in front-end development and the ability to deliver high-quality, visually appealing web solutions.

Student Mentor

Microverse

04/2022 - Present

Remote

Achievements/Tasks

- Mentored 2 students on a 1:1 basis to provide both technical and professional assistance as they completed individual and group projects in Rails and React frameworks.
- Proposed improvements to code organization to boost code quality and overall performance, resulting in a 5% decrease in the long-term cost of maintenance and bug fixes.
- I am providing advice and tips on maintaining motivation to maintain longevity in the program, enhancing student retention by 3% from the previous year.

PERSONAL PROJECTS

Luxy Ride (09/2022 - 10/2022) [🔗](#)

- Successfully designed and implemented multiple backend APIs using Ruby on Rails.
- Utilized React and Bootstrap to develop intuitive and visually appealing frontend pages for the project.
- Conducted thorough testing on both the frontend and backend features to ensure a high level of quality and reliability.
- [Source Code.](#)

Budget App (09/2022 - 09/2022)

- Designed and developed a mobile web application for budget management using Ruby on Rails.
- Created a user-friendly interface with Tailwind CSS for easy navigation and visualization of financial data.
- Conducted thorough testing to ensure the reliability and functionality of the application.
- [Source Code.](#)

EDUCATION

Full Stack Development Program

Microverse

03/2022 - 10/2022

Achievements

- Spending 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.
